

TUNGSTEN CARBIDE BALLS

THE ULTIMATE IN SPHERICAL PRODUCTS

GEC manufactures and stocks size 5/32" to 5/8" tungsten carbide balls in Grade 25. TC Balls are manufactured in strict adherence to Anti-Friction Bearing Manufacturer Association (AFMBA)

standards. Balls may be ordered to desired material specifications including TC Cobalt, TC Nickel and TC Titanium. We stock standard size balls in 6% cobalt material.

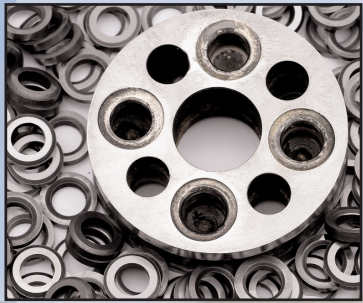

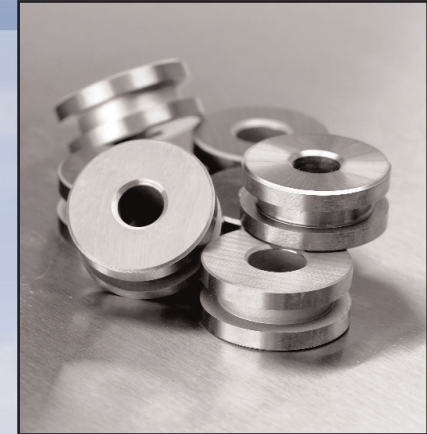

TUNGSTEN CARBIDE VALVE SEATS

AVAILABLE FOR USE IN A VARIETY OF CONFIGURATIONS AND SPECIFICATIONS FOR USE IN WEAR, CORROSIVE AND EROSION CONDITIONS.

Each seat we ship includes a finished port area and is pressure tested to insure a positive ball/seat seal. Our quality control insures defect-free finished seats that reduce installation time.

- ◆ Seats for industry standard 1" valves in port sizes 1/8" to 3/8".
- ◆ Seats for industry standard 1 1/2" valves in port sizes 1/8" to 1/2".
- ◆ Custom seats manufactured to client's drawing and material specifications.

SEAT INSERTS

FOR HYDRAULICALLY ACTUATED DOWNHOLE WELL PUMPS

Global Energy Carbide manufactures Carbide Seat Inserts for hydraulically actuated downhole oil well pumps in standard 5/16" and 3/8" sizes. Unless otherwise requested all seats will be quoted with a finished seat port area and shipped ready to install.
